Ms. Poindexter,

Journal Technologies Incorporated (JTI) is the only business entity singularly qualified to provide the following capabilities that are a requirement for our case management software and office operations:

1. 26 of the 27 district attorney's offices in the State of Oklahoma are currently centrally sharing case and name information. The data sharing platform (JusticeBroker) provided by JTI is the only product that can provide the ability for the Tulsa County District Attorney's Office to participate in this data sharing and access initiative. JTI is the only company that provides support and maintenance for the JusticeBroker data sharing platform.

2. Only JTI's customer services team can provide technical support to JustWare users. No other vendor can provide JustWare updates, critical bug fixes and/or documents and reports support.

3. Journal Technologies provides new versions, enhancements and regular version releases as part of the support fees that are paid. Only JTI can provide new versions of the JustWare case management software application.

Let me know if I can be of any other assistance,

Sincerely,

Journal
